

# KATERINA WANG

## EDUCATION

**B.S. in Computer Science, Emphasis in Game | GPA 4.0**  
*University of Utah, Kahlert School of Computing*

Anticipated May 2027

- **Honors:** Dean's List, University of Utah

## TECHNICAL SKILLS

**Languages:** C/C++, C#, Python, Java, JavaScript

**Technologies & Tools:** Linux, Git, GitHub, Docker, AWS, MySQL, Perforce

**Web & Development:** HTML/CSS, Django, WordPress, Agile

**Coursework:** Data Structures & Algorithms, Computer Systems, Web Development, NLP, Data Analysis

## PROJECTS

**Schrödinger's Curiosity | Unreal Engine**  
*Game Development, Lead Engineer, Team Lead*

May - July 2026

- Developed a time-reversal system that records and replays player controller state when switching between characters.
- Developed an interactive UI system that displays contextual key bindings near interactive objects.
- Developed a UV-based material for playing 2D animations within UMG widgets.
- Coordinated development by assigning tasks based on team members' strengths and managing team communication.

**Custom Memory Allocator (malloc) | C, Linux**  
*CS 4400 Computer Systems*

April 2026

- Built a dynamic memory allocator in C to improve heap utilization and performance.
- Implemented segregated free lists with splitting and coalescing.
- Balanced tradeoffs between throughput, memory use, and fragmentation.

**Full Stack Web Application | Django**  
*CS 3550 Website Software Development*

Aug 2025 – Dec 2025

- Built a Django recipe app with authentication and public/private content.
- Designed data models with permissions and validation, and deployed the application with domain aliasing and a JSON-based search API.

## EXPERIENCE

**Teaching Assistant | CS3500 - Software Practice I**  
*University of Utah, Kahlert School of Computing*

Aug 2025 – Present

- Serve as Lead TA since Fall 2026, coordinating with the instructor and other TAs to support course operations and communication.
- Conduct code reviews and one-on-one code discussions to assess students' understanding of program design, implementation decisions, and overall code structure.
- Evaluate 20+ weekly submissions and provide rubric-based feedback on code quality, design, and implementation.
- Lead labs and troubleshoot code, GitHub, and development environment issues for 5+ students per session during office hours and on Piazza.

**Web Administrator**  
*Yunchuang Technology, Mianyang, China*

Aug 2016 – Dec 2019

- Built and deployed WordPress sites using HTML/CSS/JavaScript, customizing themes and plugins and modifying source code to extend functionality and resolve issues.
- Managed a centralized LNMP server for 20+ domains, including deployment, security, performance tuning, and migration.
